HANROB FLIES INTO MELBOURNE

Hanrob, one of Sydney's leading pet accommodation and training facilities, is opening its doors to the pet jet set in Melbourne. Opening in July 2011, Hanrob Melbourne is situated a short distance from Melbourne's Tullamarine Airport, perfect for domestic and international travelers alike.

Dogs stay grounded

Hanrob Melbourne will be a state of the art pet hotel with indoor and outdoor play areas and the most comfortable accommodation options for precious pets, including ten luxury dog suites and cat condos.

Just like the facility in Sydney, pet owners will be able to drop their pets off before boarding a flight, happy in the knowledge that their furred family member will be in capable care.

In line with the Hanrob ethos of offering the very highest standards of pet care, nurturing and training, Hanrob Melbourne are currently recruiting and training pet care professionals to join their committed and passionate team.
