SPRING FLING

Since spring is a time for fresh starts, we thought it appropriate to cast some light on little souls who have found their way through the rescue system and into foster care. Rescue organisations and the individuals who take on foster care do great work in finding new homes to those who would have ordinarily been abandoned, surrendered and forgotten. Although many of our subjects have now found new 'forever' homes, there are plenty of others waiting for that opportunity.

BINDI

Siberian Husky X Malamute
 Age: 2-3 years old
 Bindi was rescued from Canterbury Pound and is now under the care of Arctic Breed Rescue. She likes Attention, ball and more attention. She also enjoys high energy, rough and tumble play with other dogs. Bindi is currently on a trial with a prospective family in Leumeah.

HENRY

Chihuahua X

Age: 10 years approx

Rescued from Renbury pound late June, 2011

Now in care with rescue group *Paws for Thought Rescue*.

Henry is a dear old soul with slight cataracts in his eyes and is quiet in nature. He is a Chihuahua X long hair and looks like a mini lion. Henry is gentle and sweet and likes nothing better than a simple ear rub and a lap to lie on.

REG

Pug with a little something else in there

Age: 6 and-a-half years

Rescued by *Sydney Dogs and Cats Home*. Reg was found with a badly broken femur that the vets suspected was injured through a car accident. Despite best efforts, Reg's left front leg had to be amputated. He has coped with the loss of his limb like a stoic little trooper and he has been running around quite happily and coping extremely well with his reduced mobility.

He is a lovely friendly boy who is fantastic with dogs and cats and he greets every person he sees with a wriggle of his bum and a plea for a pat. Reg has been adopted and now lives with two other pugs in Marrickville.

BRUNO

Staffordshire Terrier X

Age: 10-12 months approx

Rescued from Renbury Farm Animal Shelter to foster for *Puppy Love Rescue*. Bruno loves to play bitey-face with any or all of his three bull breed 'siblings'. He intersperses this with some serious heater hogging. Bruno has now been adopted by his foster family and although they know he loves them, they come a close second to the heater!

All your dog needs for life's adventures...

DJ

Sulphur Crested Cockatoo

DJ's technically not a rescue but was rehomed many times before finding her forever family. Her humans have received lots of advice, care and behavioural information and guidance through Parrot Rescue. Parrot Rescue rehome and foster many pet birds that need a new home or are special needs cases.

GIGI

Maltese

Age: 2 years approx

Gigi was rescued by PAWS from Renbury Farm Shelter in late May and is currently in foster care in Sydney. When Gigi was rescued she was an appalling matted mess and, has since had her coat clipped and looks lovely. Gigi has the most amazing ears that are very expressive. She is an affectionate and loving little dog and enjoys play-time, meal time and nap time equally. She knows the commands 'come', 'down', 'up', 'sit' and 'wees' and gets along well with other dogs.

COOKIE

Chihuahua X

Age: 3-4 years approx

Rescued from Renbury pound late June, 2011. Now in care with rescue group *Paws for Thought Rescue*. Cookie is a young, spritely and active girl and would appeal to a younger household. Not sure at this stage if she will sit and stay... Cookie has lovely big eyes that melt hearts. She is pretty and kind natured.

Four liver varieties to suit any pet palate.

- All Natural, nothing artificial
- Made in Australia from fine gourmet ingredients
- NO artificial colours, flavours or additives
- Made with pure chicken, beef, lamb or pork liver with added polenta, egg, and honey for a deliciously crunchy snack

OLLIE

Shih Tzu x Poodle
Age: 8 years approx

Ollie was rescued by PAWS from Renbury Farm Shelter in late May and is currently in foster care in Sydney. Ollie is a very handsome little man with a BIG personality! He is a super busy dog who is always looking for the next game. He loves his squeaky toys and especially loves his ball, if he had his way he would play ball all day long. Ollie walks well on the lead and gets on fine with other dogs. He has a loving, sweet nature and enjoys a cuddle from anyone prepared to offer him one.

LILLY

Dalmatian

Age: Nearly seven

Like most things in life, you receive inspiration from good things around you. Lilly is Urban Animal's good thing.

Lilly was dumped at Animal Welfare League with both her parents. She was about 4 months old. Back then, Lilly was afraid of her own shadow. AWL contacted Dalmatian Welfare and they fostered Lilly and rehabilitated her for a month before they rehomed her to us. Lilly is a bright and fun-loving dog, described as a heat-seeking missile for love and affection.
