FRONTLINE PLUS®

ADVANTAGE®, REVOLUTION®¹

**FRONTLINE PLUS
KILLS ALL FLEA
STAGES ALL
MONTH LONG.**

**AFTER THREE
WEEKS, OTHER
FLEA TREATMENTS
AREN'T UP
TO SCRATCH.**

"There are a number of flea treatments on the market. Many claim to last for a whole month, but unfortunately, that's only part of the story. To protect your pet and home for a whole month, your flea treatment requires two active ingredients. One that kills adult fleas, and another that kills eggs and prevents larval and pupal development. That way, the flea lifecycle is broken at every stage to give you complete flea control for both your pet and home. Without this second ingredient, fertile flea eggs may be laid during the 4th week, reinfesting your pet and home environment¹."

"And that's why I recommend FRONTLINE Plus.

The only spot-on flea treatment with two active ingredients to kill fleas and their eggs, as well as ticks* on dogs, all year round."

*For control of Paralysis ticks on dogs, FRONTLINE Plus must be applied every 2 weeks. For tick control on cats use FRONTLINE® Spray every 3 weeks. Always read the label instructions.
